

About the IBN

The Internet Business Network (IBN) is the online-database of all companies registered in the commercial register of the Chambers of Commerce and Industry Aachen, Bonn/Rhein-Sieg, Mittlerer Niederrhein (Krefeld, Mönchengladbach and Neuss) and of the Niederrheinische Chamber of Commerce and Industry (Duisburg, Wesel and Kleve).

More than 50.000 companies are presented with their address, telecom data, focal point of company, products and the services offered as well as the company profile.

About the Website

<http://www.ibn.ihk.de>

you can search in the database yourself – free of charge.

Because of the worldwide availability everybody can find out about the companies in the districts of the Chambers of Commerce and Industry involved.

High Response

Due to the dynamic link to search engines like "Google", "Fireball" and "AltaVista" and the multilingualism of the database, IBN is very popular all over the world.

Your Benefit

Each company has its own web page in the database. There you can get a view of the branch as well as the products and services offered. Often a link to the homepage gives further information.

Additionally the postal address is displayed in the MAP24 portal. Telephone number, fax or e-mail guarantee a fast and straightforward contact with the company.

IBN supports the setting up of business contacts at home and abroad.

The Search

Looking for business contacts, you are supported by extensive investigation facilities.

Searching for

- @ a company
- @ a product
- @ a brand name or
- @ a service

you enter appropriate keywords into the data entry mask (look at the screenshot). You can use either a pattern or an extended search.

In addition you can effect a regional limitation by choosing a city, community or post code.
